

HCM Functionality Matters

And isolved is Leading the Way

Utilizing human capital management (HCM) technology is a must for organizations looking to support their workforce.

Yet a survey of over 1,000 HR leaders shows **37%** are switching their HCM providers in the next year because:

They want to **lower costs** for their organization

They are undergoing a **digital transformation** process

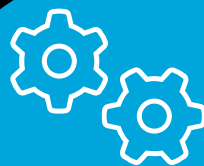

They need a platform that can **scale and grow** with business needs

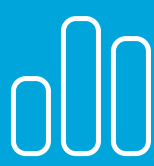

Functionality clearly matters

and according to Nucleus Research's HCM Value Matrix, isolved delivers.

The leading analyst firm notes isolved's commitment to equipping small-and-medium sized businesses (SMBs) with enterprise-grade functionality, featuring:

Automation

Predictive Analytics

Trend Identification

Modeling

Nucleus Research also noted isolved's innovation in:

Driving **value** for customers at scale

Listening to customer **feedback**

Peer-to-peer **communication** and education
