isolved™

Shopping for HCM Tech?
Consider a Leader.

More than 2,500 organizations shared insights about the HCM technology they use every day for Sapient Insight Group's 26th Annual HR Systems Survey Research.

The research identifies emerging trends for HRMS platforms, including:

Contingent labor management   **Skills inventories & taxonomies**   **Self-service workflows**

**Talent profiles**   **AI-backed reporting & analysis**

What about user experience and vendor satisfaction?

isolved is rated number one for small businesses in four categories:

#1
